

## Lesson 4: Entering Worksheet Formulas – Salary Spreadsheet

---

Go to the following website:

<http://www.careeroverview.com/>

*\*Find 5 Jobs that interest you. Type the job title and the salary for each job. Create a spreadsheet (see example on p.104 – Activity 4-1) calculating 10% income tax and 7% social security tax. Find the Net Pay. You will have 5 columns.*

*Save as PDF & upload to your Yola website – under “My Projects”*

**Hint:**

**C3:C5 - multiply the gross pay in column B by .10**

**D3:D5 –multiply gross pay in column B by .07**

**In range E3:E5 – subtract amounts in columns C and D from the amount in column B.**
