

## Lesson 6: Using Installed Templates

In Lesson 6, you learned how to enhance a spreadsheet by inserting SmartArt graphics, clipart, hyperlinks, and using installed templates.

**Your Task:** Under “inventories,” install the Movie Collection Database and create an inventory of 25 movies (ratings *only* G, PG, PG13). Include the actor names –not character names.

**\*Save spreadsheet as a PDF and upload it to your CTA Yola website.**
